

Making Evaluation Easy

Resources and Tools for Implementing an Evaluation of Your Farm to School Program

Accountability * Improvement * Results * Marketing

Evaluation has many purposes and is increasingly expected by our decision-makers and administrators in our school districts, other stakeholders, and our current and future funders. But often, we don't have the experience or resources to implement an evaluation.

Join the Colorado Farm to School Task Force to overcome these barriers by:

- Learning about the Evaluation Toolkit and other helpful resources;
- Developing a draft evaluation plan based on the resources you have available; and
- Learn about free technical assistance available to you and your school district.

This training is open to:

- School food service, principals, superintendents, teachers, school garden coordinators, and others from schools who are interested in implementing and evaluating farm to school efforts; and
- Community partners, local funders, and others involved with farm to school who want to learn more about how to evaluate and measure outcomes.

When/Where

Friday, May 10th from 1:30 pm – 4:30 pm

Colorado Mountain College, 690 Colorado Ave., Carbondale, CO 81623

Please RSVP by May 3rd at <http://coftstfroaringfork.eventbrite.com>

Questions or more information, please contact Rachael@Sparkpolicy.com

Evaluation can be easy and can help you to market and build buy-in for your Farm to School program!
