

Sustainable Transportation at UC Irvine

An Event of the ASCE OC YMF Technical Speaker Series

Speaker

Ron Fleming, UCI Director of Transportation and Distribution Services
Department

Program

The UC Irvine Transportation and Distribution Services Department does more than just park cars. Under Ron Fleming's direction, UCI's T&D Department's comprehensive sustainable transportation program annually eliminates over 39 million vehicle miles, 18,600 tons of greenhouse gas (GHG) emissions, and saves individuals and the university over \$21 million.

Please join your fellow Orange County YMF to hear Ron provide a technical overview of the award-winning and avant-garde transportation policies and programming his department has implemented on campus .
