

Business Managers

A two-day event designed to meet the needs of Business Managers who are often overlooked when up-skilling staff is considered. The course content is practically based and focussed on the following key areas:

- Strategy and Leadership
- Project Management
- Team Recruitment and Induction
- Team and Performance Management and accountability
- Partner performance enhancement and accountability
- Efficiency Management
- Clients
- Services
- Implementing new projects
- Technology and the accounting profession
- Marketing and Selling
- Billing and Debtor Management
- Planning and Action

Participants are encouraged to remain in contact in a collegial way and all graduates will receive regular alerts and updates as new information comes to hand. As Business Manager members of The Accountants' RePublic they will have access to the considerable resources and ongoing training including regular newsletters, articles of interest and webinar based workshops.
