

SESSION 3: 1:45 –3:30PM

PCH 202	A Survivors Perspective, Kathleen Finn	Ms. Finn will discuss surviving sexual assault as a Peace Corps volunteer, and how she connected with other Peace Corps Volunteers to bring the issue of sexual violence to the attention of Peace Corps and Congress. All of these efforts culminated in the <i>Kate Puzey Peace Corps Volunteer Protection Act</i> , which President Obama signed into law in 2011. Ms. Finn will discuss her journey and how she has become an activist to support survivors of sexual violence.
PCH 303	New Directions in Criminological Research	Individual presentations by Masters in Criminology graduates: <ul style="list-style-type: none">• Alethia Z. Fenney: “Navajo Peace Making and Māori Restorative Justice: A Comparison of Process and Procedure”• Valerie M. Gantzler: “Community Reentry Programs and their Effect on Recidivism: A Study of Life Skills Clients at the Denver County Jail”• Ryan M. Martinez: “Fear of Crime & Media Representation of Crime in Denver”• Eliza Stallings: “The Prevalence of Cyber Harassment/Cyber Stalking at Regis College”
PCH 180/ 182	Cybercrime and Computer Forensics, Jim Ponzi	This presentation will cover what is involved in a digital forensics investigation to include where and how criminals hide digital evidence. Other topics will include hashing, wiretapping, pen trap and trace, unusual devices that have memory, digital law, and some forensic accounting information. Professor Ponzi’s presentation is a must see for understanding the present techniques used by terrorists to convey information between terrorist cells, and the terrorism potential the U.S. can experience through the use of computers.

PCH 310	Making Science Work for Law Enforcement: NecroSearch Model, Clark Davenport	This presentation will discuss how a Colorado-based, non-profit organization has pioneered the use of science to assist law enforcement in locating and analyzing clandestine grave human remains and hidden evidence. Applied research conducted by the group, lessons learned from both physical and behavioral sciences for locating surface human remains/evidence, buried remains/evidence and bodies/evidence in water environments will be covered through case histories. You will be amazed at the science involved in this investigatory activity and how successful the NECROSEARCH Team has been over the years.
PCH 214	The Threat of Agricultural Terrorism, Dr. Bill Bennett	The focus of this presentation will be on the key players if a nefarious event occurred, and how that might link to the Federal Bureau of Investigation (FBI), weapons of mass destruction (WMD) or the Joint Terrorism Task Force (JTTF), as well as, state or local resources being coordinated via the Colorado Information Analysis Center. This presentation will reflect the ongoing efforts to build out the Department of Homeland Security Target Capability – Safety and Security of the Food Supply within the State Homeland Security Strategic Plan.
PCH 205	Warning Signs of Domestic Violence and the Criminal Justice Process, Phil Clark	Mr. Phil Clark will be speaking about missing the warning signs of domestic violence which led to his daughter being murdered, and his family's journey through the criminal justice process. Mr. Phil Clark and his wife Stasi, started the Toni Connection in honor of their daughter.
