Newark, Delaware, U.S.A.

Join us.

“Imperative and Possibility: STEM education for the 21st century”

**Luna I. Mishoe Science
Center South 223**

**November 14th, 2013 @
6 p.m.**

**Free and open to
the general public**

About the Speaker:

Dr. Gray was appointed President of Delaware State Board of Education by Governor Jack Markell, in 2009, and co-chair of the Delaware STEM Council in 2012.

Dr. Gray is New Product Commercialization Manager & Six Sigma Consultant with DuPont Crop Protection where she leads cross-functional teams that span Asia, Europe, Latin and North Americas. She currently serves on the Board of Directors for the U.S. Education Delivery Institute, serves on the Board of Trustees for the University of Delaware, and on the Committee of Distinguished Advisors to the Department of Chemistry & Biochemistry at the University of Maryland, College Park. Teri is chair of the American Chemical Society Diversity & Inclusion Advisory Board and consultant with the ACS Women Chemist Committee.

Join us for a provocative conversation with Dr. Gray on STEM education in Delaware today and where it needs to be to meet the demands of the 21st century.

All are invited.

Refreshments will be served.
