

THE GLOBAL CARDBOARD CHALLENGE

A GLOBAL CELEBRATION OF CHILDREN'S CREATIVITY
AND THE ROLE COMMUNITIES CAN TAKE FOSTERING IT

October 5th, 2013 • 1 – 4pm • The Civic Lab

Participant in The Chicago Cardboard Challenge

On October 5th, Young Chicago Computer Artists + Engineers (YCCAE) in partnership with The Imagination Foundation and The Civic Lab (The Presenters) are presenting the Chicago Cardboard Challenge, a free day of building with piles of cardboard with which to build, coaches from many walks of life to guide that building, public recognition of participating young people's creativity and opportunities to integrate further technology with electrical components, robotics or sculpting.

The Presenters, and any partnering organizations working with them, however, are not able to provide any more services than stated above and excuse themselves from any liability in this event. While every attempt will be taken to limit danger to youth, The Presenters cannot assume any responsibility for any risk – or resulting harm – to any participant. At 4pm, the end of this event, youth are expected to leave the presenting space and, in absence of doing so, will be asked to leave, followed by authoritative action.

The Presenters also cannot be liable to any damage to The Civic Lab's space and any damage, at The Presenter's discretion, will be the responsibility of the parent or guardian of the participant.

Participants will travel to this event by many means and The Presenters are not, in any way, liable or responsible for any event during this travel. While YCCAE is able to provide a limited number of passes on Chicago Transit Authority's elevated and underground trains, the organization cannot assume any liability or responsibility during this travel.

The Presenters will also photograph the event for use in future marketing or publicity. All participants in this event are consenting to the use of their likeness, recorded or otherwise, in this way.

In cases of physical emergencies, effort shall be made to contact the undersigned prior to rendering treatment, but, in these cases, The Presenters will obtain qualified and licensed medical care, and, if, in the opinion of the attending physician, the physical emergency may endanger the participant's life, cause disfigurement, physical impairment or undue discomfort if delayed, treatment will be provided.

Your signature below indicates an understanding of these policies.

We, or my child or ward, has registered for this event with the email _____@_____.

During this activity, I (as the parent/guardian of a participant in this activity) may be reached at (____) _____ - _____. If you need to contact me at another time, I can also be reached at (____) _____ - _____. This is my (please circle) cell / home / work number.
